## Dear Friends

Welcome to 2009. A fabulous year lies ahead of us. The Bayside Environment Friends Network has grown out of its trial stage and is well established. Thank you very much to all of you for your commitment.

The last meeting in 2008 developed very interesting ideas for events to raise public awareness of the precious beauty of our foreshore and reserves: A second Nature Discovery Day at Half Moon Bay is planned for March. And there have been first talks with the organizers of the Open Garden Scheme about ideas to collaborate.

The information kit for interested volunteers is progressing. Thank you to all the group coordinators for their time to write a description of their site. We are currently putting everything together and will come back with a draft.

*The most beautiful things in the world cannot be seen or even touched; they must be felt with the heart.*

I am looking forward to our next meetings. Please find date and time in the column on the right.

Kind regards  
Barbara Jakob
