# SIGNIFICANCE RATINGS ~ CRITERIA

Criteria for the identification of significant trees have been developed by the National Trust, and applied over a number of years to their own Register of Significant Trees. The same criteria have been used by the consultants to identify in a preliminary way, trees worthy of detailed inspection to further consider for inclusion on a Significant Tree Register for Bayside. The various categories, or criteria, used to define significant trees are set out below.

## **Category 1, Horticultural Value**

## **Category 2, Location or Context**

Sub categories

- (1) Historic garden or park
- (2) Historic cemetery
- (3) Important landmark
- (4) Remnant native vegetation
- (5) End of natural range
- (6) Contribution to landscape
- (7) Historic town
- (8) Historic Planting Style Blank

## **Category 3, Rare or Localised**

Sub categories

- (1) Only known specimen
- (2) 1 to 10 known specimens
- (3) 10 to 50 known specimens
- (4) In the Wild
- (5) End of natural range
- (6) Disjunct Community

## **Category 4, Particularly Old**

## **Category 5, Outstanding Size**

Sub categories

- (1) Height
- (2) Circumference
- (3) Canopy Spread
- (4) Height x Circumference
- (5) Spread x Circumference
- (6) Height x Circumference x Spread

## **Category 6, Aesthetic Value**

## **Category 7, Curious Growth Form**

Sub categories

- (1) Abnormal Outgrowths
- (2) Fusion of Branches
- (3) Unusually Pruned
- (4) Unusually damaged

## **Category 8, Historical**

Sub categories

- (1) Cultural Group
