

Health and Wellbeing Action Plan 2021—2025

Year 2 – Annual Action Plan

Bayside City Council acknowledges the Traditional Owners and custodians of this land, the Kulin Nation, and we pay our respects to their Elders past, present and emerging.

Context

Background to this Action Plan

The Health and Wellbeing Action Plan 2021–2025 is one of two strategic action plans that operationalise the goals and objectives outlined in Bayside’s Municipal Public Health and Wellbeing Plan.

The Health and Wellbeing Action Plan provides strategic activities for the whole of Council to deliver to help achieve improved health and wellbeing in the Bayside Community. The Action Plan aims to promote and enable healthy lifestyles and is based on the ‘Social Model of Health’ that recognises the wide range of factors which influence health and wellbeing.

Delivery of this action plan

Partnerships are crucial in ensuring the health and wellbeing priorities of Bayside are addressed. Council will implement the Health and Wellbeing Action Plan in partnership with local organisations, agencies, community groups and clubs over the next four years. Partners will have the opportunity to participate in an annual review process to ensure actions remain relevant and based on best practice.

Measuring Success

Progress against the Health and Wellbeing Action Plan will be reported through an Annual Report to Council and Department of Health. The Health and Wellbeing Action Plan will be reviewed annually, to ensure its’ relevance and to respond to the changing needs of the Bayside community.

How to read the Action Plan

Goals and Objectives: The goals and objectives of the Health and Wellbeing Action Plan align directly to the goals and objectives of the Municipal Public Health and Wellbeing Plan 2021-2025.

Actions: Activities undertaken to achieve the goal and objectives of the Municipal Public Health and Wellbeing Plan 2021-2025.

Progress indicators: Outlines how Council will assess the achievement of the actions. Both qualitative and quantitative data will be collected to measure success.

Lead and Partners: This area identifies who will be involved in the delivery of actions either in a lead role or supporting role.

Timeline: The estimated start and completion date for each action.

Life stage: The life stage each action is targeting.
