

SEASONAL SPORTS CLUB INFRASTRUCTURE CONTRIBUTIONS FRAMEWORK

This framework will provide a transparent structure for contributions by clubs to infrastructure projects outlined in Council's Recreation Strategy and Sportsground Pavilion Improvement plan, to fund Club requested elements beyond the minimum standards provided by Council.

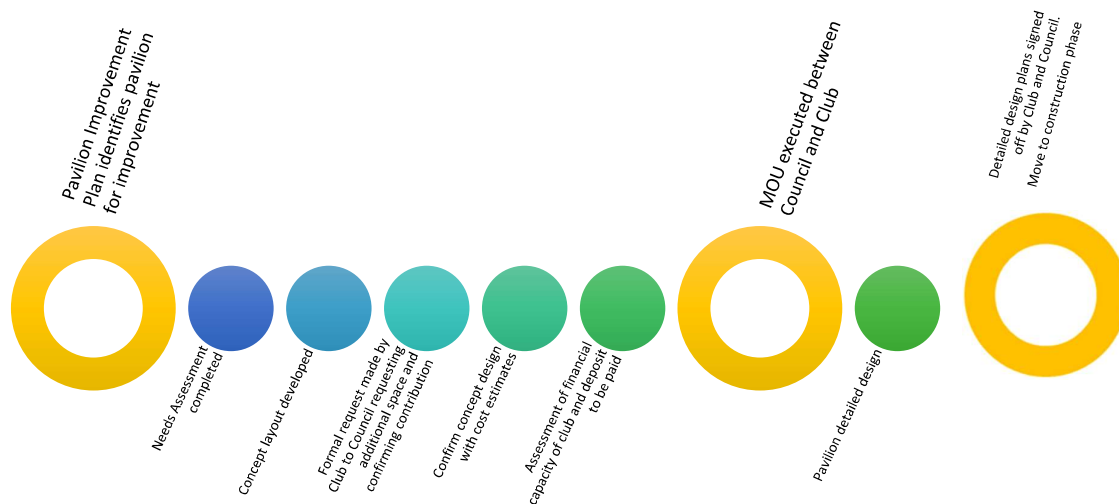

Why is the framework important?

It will ensure that tenant clubs can influence infrastructure planning to ensure desired elements in addition to Council's standards that are specific to the sport can be provided, while providing transparency and consistency across infrastructure projects.

How will the framework be applied?

Clubs will be required to agree to conditions outlined in a Memorandum of Understanding prior to the approval of any project. This MOU will outline the club's responsibilities in relation to the supply of financial information, timelines for payments and any ongoing maintenance or financial commitments arising from the project. All projects will be managed and delivered by Council.

The framework:
