Making Bayside a better place

Bayside City Council's vision is to work together with the community to ‘make Bayside a better place’

In 2016 more than 1,200 community members, representing a broad range of backgrounds, participated in a variety of surveys, face-to-face engagements and online forums to create the Bayside Community Plan 2025. This consultation provided valuable insights into what residents value and what is needed to make Bayside a better place. It was used to inform and prioritise the development of this Council Plan.

The structure of the Bayside Community Plan and the Council Plan is based on the ‘domains of liveability’, that is what would make Bayside a great place to live, work and visit. These domains are drawn from the World Health Organization’s Age Friendly Cities Framework, the Community Indicators Victoria Data Framework and the University of Melbourne’s Place, Health and Liveability Research Program.

The seven domains of liveability are:

- Infrastructure
- Transport
- Housing and neighbourhoods
- Open space
- Environment
- Local economy and activity centres
- Community health and participation.

In addition to setting goals for each of the domains of liveability, this Council Plan adds ‘Governance’ as an eighth goal to reflect the community and Council’s desire to improve community engagement to inform decision making and deliver financially responsible services and facilities that meet community needs.
What our community values
Infrastructure

Our infrastructure includes the physical assets Council provides to deliver services to the Bayside community, such as underground drainage services, local roads, parks, reserves, pathways and buildings. Our research showed that the community values infrastructure that functions seamlessly, is attractively presented and is well maintained. The community wants the location of facilities to be spread across the municipality and conveniently placed for easy access, particularly community buildings, sporting grounds and playgrounds. Residents also want sporting facilities that are accessible and promote gender equity.

This Council Plan will deliver an unprecedented capital works program to upgrade, expand and renew existing infrastructure to meet current and future community needs. It will progressively upgrade all of our sports pavilions to provide female-friendly facilities, access for people of all abilities and to meet the needs of the community. Council will develop facilities that address the requirements of basketball and netball, and will provide safe and contemporary play facilities by upgrading 37 playgrounds in four years.
Transport
The Bayside community enjoys access to a variety of transport options and the convenience that this choice provides; however, this access varies across Bayside. Walking and cycling are preferred by our residents for exercise. Commuters value the frequent train services for work and education. Private cars are used by residents for distances more than a kilometre, for social and shopping trips, school drop-offs and pick-ups, and travel outside the municipality. The Bayside community seeks safer and more convenient infrastructure for cyclists and pedestrians, seeks safer streets and less congestion in residential areas, and wants to encourage and improve public transport use and access. Car parking is also an important issue for Bayside residents, especially with commuters parking in residential streets, and with the increasing numbers of multi-car families.

This Council Plan focuses on influencing state government transport planning through advocacy to improve our bus routes, increase commuter parking, and ensure station redevelopments meet community needs. We will improve our bicycle and pedestrian facilities, trial car-share schemes to lessen resident reliance on cars, and explore opportunities to increase parking capacity in activity centres.

Housing and neighbourhoods
Our community values the benefits of living in Bayside, whether it is raising a family, enjoying retirement or finding independence as a young person. Residents enjoy Bayside’s proximity to Melbourne, supported by the network of roads and public transport that provide convenient and easy access. Bayside residents have a strong desire to see neighbourhood character preserved, with development sympathetic or responsive to the natural environment. As Bayside’s population increases, the community is keen to see these qualities enhanced and protected. These qualities vary across Bayside, with residents strongly identifying with the individual character of their local area.

The strategies in this Council Plan seek to make discretionary planning controls stronger and ensure new development responds to preferred neighbourhood character. They also seek to influence housing affordability and provide housing that meets the needs of various life stages through advocacy.

‘Bayside residents have a strong desire to see neighbourhood character preserved, with development sympathetic or responsive to the natural environment. As Bayside’s population increases, the community is keen to see these qualities enhanced and protected’.
Open space

Open space is one of the key attractions for our residents living in Bayside. Our open space includes over 17 kilometres of coastline that is highly valued by our community. Bayside residents appreciate our parks and gardens for leisure and recreation, and the opportunities they provide for tourism, celebrations and other events.

This Council Plan will protect, enhance and increase quality open space to meet the needs of our community. A key strategy will be securing an additional four hectares of new open space at the former CSIRO site in Highett.
Environment

The Bayside community expects to live in a place where the air, water and land are free from contaminants and pollutants. Our beaches and foreshores are our most valued environmental asset, and their protection and maintenance a first-order priority for our residents. There is also a strong desire to protect the biodiversity within marine reserves and along the foreshore, and in bushland and heathland reserves. Preserving Bayside’s tree canopy and vegetation is profoundly important to the community, especially for residents who live close to developing areas.

The strategies in this Council Plan aim to conserve the unique ecological and environmental value of Ricketts Point, and deliver an improved response to climate change to protect our beaches and foreshores by working with state and federal governments. We will lessen Council’s and the community’s environmental footprint by reducing Council’s greenhouse gas emissions and water consumption, and by working with the community to decrease the percentage of waste that goes to landfill.

Local economy and activity centres

Bayside residents want a thriving local economy that provides employment and opportunities for recreation and entertainment during daylight and evening hours. Such an economy depends on several factors, including support for local businesses, a mix of commercial enterprise and easy access for residents and visitors. Residents value their neighbourhoods and their local businesses and want to retain the character of each activity centre.

This Council Plan will identify options to encourage the night-time economy, ensure our public places and shopping streetscapes are engaging and attractive, and recognises the important role of local centres and convenience retailing.
Community health and participation

Bayside’s community wants to feel supported and engaged to live an active and healthy lifestyle regardless of age, gender, locality, personal circumstance or physical ability. The community recognises that opportunities to play sport, walk freely around the municipality, and enjoy an enriching social life are key to their health.

The strategies in this four-year Council Plan aim to improve public health and wellbeing, enhance gender equity in decision making in the community, increase opportunities for volunteering, and prepare for the national aged care and disability insurance reforms.

Governance

The strategies in this Council Plan seek to ensure strong and effective democratic representation from Council, and to deliver responsive and financially-responsible services and facilities that meet community needs. Strategies include a review of Council’s property portfolio and leasing policy to ensure our assets deliver maximum public value, the identification and implementation of improvements in Council’s services, and strengthening community engagement to inform decision making, including community participation in Council meetings.
This Council Plan fits within the Better Place Strategic Planning Framework. It provides a clear line of sight between the long-term aspirations of the community, reflected in the Community Plan 2025, and the four-year priorities for the elected Council proposed in this document.

These priorities will drive Council’s major strategies and policies that enable Council to deliver against their vision. Following the development of the Council Plan 2017–2021, the major strategies will be reviewed to ensure alignment with the new goals and priorities.

The Community Plan expresses the community’s aspirations for Bayside’s liveability.

The Council Plan establishes the elected Council’s 4 year commitments.

Continuous Improvement (Business Excellence Framework)

Organisational Excellence Strategy

Making Bayside a better place
Bayside Better Place Strategic Planning Framework

**Domains of Liveability**
- Community Plan
  - 10 year horizon
  - Review prior to election (4 years)

**Big Picture Influences**
- State and federal policy – funding, infrastructure, planning
- Demographic drivers – ageing population, new communities
- Technological advances – virtual world, online business
- Sustainable world – finding resource solutions
- Diminishing habitat – protecting land and biodiversity
- Consumer expectations – experiences and social relationships

**Elected Council Priorities**
- Council Plan
  - Developed post election (4 years)
  - 4–10 year horizons
  - Municipal Strategic Statement and Wellbeing for All Ages and Abilities Strategy reviewed post Council Plan

**Better Place Approach Key Result Areas**
- Open Space
- Transport
- Local Economy and Activity Centres
- Housing and Neighbourhoods
- Environment
- Community Health and Participation
- Infrastructure

**Organisational Policies**
- Long Term Financial Plan
- Organisational Strategies and Plans
- People
- Service
- Efficiency

**Council Policies**
- Council Strategies and Plans
  - Open Space Strategy
  - Transport Strategy
  - Local Economy and Activity Centres
  - Housing and Neighbourhoods
  - Environment
  - Community Health and Participation
  - Infrastructure

**Organisational Excellence Strategy**
Councillor profiles

In October 2016, Bayside residents elected seven councillors in three wards to govern our city.

- **Northern Ward**
  - Councillors: 2

- **Central Ward**
  - Councillors: 3

- **Southern Ward**
  - Councillors: 2

**Councillor Profiles**

Council vision

Council will work with our community to make Bayside a better place.
Goal 1

Infrastructure

Council will work together with the Bayside community to plan and deliver community infrastructure that responds to the changing needs of the Bayside community.

Strategic objectives

We want a Bayside where infrastructure:

- Is fit for purpose for today and into the future.
- Is innovative, environmentally sustainable, and reflects the local character of the area.
- Is safe, accessible, adaptable and is highly utilised, providing high levels of value.

</tbody>
</table>
This Council plan will deliver an unprecedented capital works program to upgrade, expand and renew existing infrastructure.
Goal 2
Transport

Sustainable transport is the mode of choice, facilitated through the creation of a well-connected, safe, accessible and convenient transport system that positively contributes to a strong economy, the health and wellbeing of the community and a low-carbon future within Bayside.

Strategic objectives
We want a Bayside:

• Where public transport is safe, frequent and connected to other modes of transport, such as bike or walking trails, to reduce the reliance on cars.

• In which a variety of transport options meet the needs of the community.

• With appropriate parking facilities at train stations and shopping centres that reflect shifting demand, such as increases in public transport use, electric vehicles and plans for the future of driverless vehicles.
### Strategies

</thead>
</table>
| Improve bicycle and pedestrian facilities to make cycling and walking more attractive options for short trips | Improve cyclist and pedestrian safety by upgrading high-risk zones on the Bay Trail  
Implement the bicycle strategy to:  
- Provide bicycle parking in public locations where there is an identified need, such as shops, libraries and sports clubs  
- Develop a network of well-connected bicycle routes  
- Enforce the state provision in the planning scheme to ensure the specified number of bicycle parking stations in new developments | Years 1–4 | Increased cycling trips on the Bay Trail (Year 1 target, 4 percent increase)  
Reduction in high-risk zones on the Bay Trail (Year 1 target 3, high-risk zones removed; by Year 4 target, 6 high-risk zones removed)  
Reduction in pedestrian and cyclist casualty accidents on local roads (Year 1 target, 2 percent decrease) |
We will improve our bicycle and pedestrian facilities, trial car-share schemes to lessen resident reliance on cars, and explore opportunities to increase parking capacity in activity centres.
Goal 3

Housing and neighbourhoods

Neighbourhood housing development across Bayside will respect and enhance Bayside’s valued built and natural heritage and neighbourhood character. New housing growth will be focused on identified activity centres, demonstrating strong environmental credentials and providing a range of housing types to accommodate changing community needs.

Strategic objectives

We want a Bayside:

• Where significant development is directed to specified and planned activity centres and strategic locations, providing a transition to surrounding residential areas and incorporating improved infrastructure and open space.

• Where neighbourhood character, streetscapes and heritage is respected and enhanced, and the community has a strong connection to place.

• With village-style activity centres, combining retail at ground floor with increased opportunities for apartment-style living above.

• Where development contributes to a high visual amenity, is ecologically sustainable, demonstrates high quality compliant design, and responds to the streetscape and neighbourhood context.

• Where a range of housing types are provided to accommodate the changing needs of the community, enabling people to age in place and providing opportunities for young adults and families to live and remain in the municipality.

</tr>
</tbody>
</table>
We will seek to make discretionary planning controls stronger and ensure new development responds to preferred neighbourhood character.
Goal 4
Open space

We will work together to build our open space network to support biodiversity, improve health and wellbeing and community connections, and provide access for current and future generations.

Strategic objectives
We want a Bayside where:

• The foreshore is protected, beaches are clean and accessible and competing interests are balanced.

• We have a mix of quality formal and informal recreation space and bushland that are well used, connected and distributed across the municipality.

| Prioritise the allocation of the development open space contributions to optimise provision and community access to open space | Develop a decision making framework for the allocation of funds to open space projects from the Resort and Recreation Levy  
Allocate the funds from the Resort and Recreation Levy to enhance open space | Year 1    | Decision making framework developed and implemented (Year 1)  
Spend 70 percent of annual levy income per year (Years 2–4)                                                                                                                                                                      |
| Encourage the planting of local indigenous vegetation                                | Promote community awareness and visitation to the community nursery | Years 1–2 | The number of indigenous plants sold from the Community Nursery (Years 1–2 target, more than 71,000 plants)                                                                                                           |
This Council plan will protect, enhance and increase quality open space to meet the needs of our community.
Goal 5
Environment

Council and the Bayside community will be environmental stewards, taking action to protect and enhance the natural environment, while balancing appreciation and use with the need to protect natural assets for future generations.

Strategic objectives
We want a Bayside where:

- Erosion is minimised and managed on our foreshore cliffs and beaches.
- Our environmental impact is decreased through reduced community waste and efficient water and energy usage in Council operations.
- Council and the Bayside community leads the way in environmental citizenship.
- We protect and enhance Bayside’s tree canopy and vegetation on public and private land.

We will improve our response to climate change and protect our beaches and foreshore.
Goal 6
Local economy and activity centres

Bayside will be an attractive place to live and work, with new growth and investment in the local economy and business community increasingly structured around innovative, knowledge and service oriented enterprises.

Strategic objectives
We want a Bayside where:

- Shopping villages are vibrant, attractive and interesting places where the community comes together, providing a variety of innovative, dynamic and convenient services.
- Small activity centres contribute to the village feel and provide neighbourhood convenience and employment opportunities.
- Shoppers and visitors feel safe in local shopping strips, both day and night.
- Local opportunities for business and employment are protected and enhanced, and opportunities for economic innovation are embraced.
- Access to transport options is convenient and parking encourages local shopping.
- The foreshore generates optimum economic, social and environmental return.

<tr>
<td>Reposition the Bayside Business District into an innovation, office and skilled technology hub</td>
<td>Develop and implement an Advocacy and Promotion Strategy to attract a major drawcard tenant (health/education/advanced technology)</td>
<td>Years 2–3</td>
<td>A firm commitment achieved from a drawcard tenant to establish within the Bayside Business District (Year 3)</td>
</tr>
</tbody>
</table>
We will ensure our public places and shopping streetscapes are engaging and attractive.
Goal 7
Community health and participation

Bayside’s community will be supported and engaged to live an active and healthy lifestyle regardless of age, geographical location, personal circumstance or physical ability.

Strategic objectives
We want a Bayside:

• Where we are a strong and supportive community and people of all ages are engaged, know their neighbours and shopkeepers and are connected to them.
• Where the community is healthy, active and feels safe.
• Where the community engages in advocacy, transparent decision making and is part of the solution.
• With thriving local non-profits delivering contemporary, client-centric services locally.
• Where we encourage and acknowledge community volunteering.
• Where health issues are identified and addressed at root cause.
• With a focus on gender equity in decision making.

<td>Increase in the number of residents who volunteer (Year 2 target, 38 percent)</td>
</tr>
</tbody>
</table>
We will improve public health and wellbeing, enhance gender equity in decision making in the community, and increase opportunities for volunteering.
Goal 8

Governance

Bayside will enjoy strong and effective democratic representation from its Council and responsive and financially-responsible services and facilities that meet community needs.

Strategic objectives

We want an organisation:

- That is financially sustainable.
- That is well managed and delivers great services.
- In which decision making is open, transparent and informed by representative community views.
- In which effective partnerships are developed to deliver improved liveability for the community.
- That has relevant models for ownership and governance of Council facilities.

Increased views of archived Council meetings (Year 2 target, 950 annual views)                                                                                                                                  |
We will ensure strong and effective democratic representation
How we will report on our progress

Bayside City Council ensures transparency and accountability through regular reporting to Council and the community to monitor our performance.

Council will report on the progress of the annual actions contained in this four-year Council Plan on a quarterly basis, with a detailed report produced in the Annual Report. In addition, the Annual Report measures our performance against the strategic indicators in the Council Plan and the state-wide measures set in the Local Government Performance Reporting Framework.

The strategic objectives in the Council Plan are reviewed annually to ensure we are able to adapt to changing community needs and other internal and external factors.
What our community values
