Introduction	3
Roads.....	4
Lanes.....	63
Ancillary Areas.....	67
Appendix A – Arterial Roads.....	69

Introduction

This register has been prepared in accordance with schedule 1 of the Road Management Act 2004. It contains a list of the roads and lanes that Bayside City Council considers are reasonably required for general public use and for which Council is the responsible coordinating road authority.

The responsible coordinating road authority for declared main roads and state highways is VicRoads. For details of these roads within Bayside see Appendix A. Bayside City Council is responsible for some assets along these roads, predominantly the footpaths, for further information see the Ministerial Code of Practice for the Operational Responsibility for Declared Freeways and Arterial Roads.

Unconstructed lanes and right of ways and “paper roads” (roads that only exist on title), are not included in this register. They are not considered to be reasonably required for general public use.
